

## Triangles

### ***Assignment #8 – Triangles part one***

**Complete the following and pass in via Edmodo.**

**Essential Question:** *Write your own question about triangles based on the problem.*

**The Problem:** In TASC next time we meet, you will be given a set of supplies to build a structure that must support a large weight. Plan on using triangles as a key design element.

**Resources:** Locate at least two of sources of information about triangles that will help you build a strong structure and answer your essential question. Write notes, including key vocabulary terms and concepts, from each source and cite it. Sites such as Ask.com and Yahoo Answers are not appropriate sources.

**Planning:** Find examples, either online or in real life, of triangles being used in a structure that must support a weight.

**Bring in at least four images of such structures to TASC on March 30<sup>th</sup>. Having them on your phone, rather than printed out, is okay, as long as you can share them with your teammates.**
